

# The CAWNY Snack Store

## Your Child's Purchases

Throughout the years, I have seen many Elementary school students spending \$2 or more on snacks and treats for themselves and their friends and I am not 100% sure that their parents realize the amount of money they are spending in the Snack Store.

As a parent, it is completely up to you how much money your child spends in the Snack Store. But, if you wish for your child to only purchase an item or two, please send in a **small** amount of "treat/snack money." A small amount of money is plenty. The store offers many items that are 25¢ to 50¢.

If you don't want your child to purchase any treats or snacks, please do not allow them to bring extra money into school.

Also, please be sure your child understands the difference between their lunch money and their "treat/snack money."

## Your Child's Allergies

If your child has allergies and you are concerned they are not sure about what items they can eat safely, please send their "treat/snack money" in an envelope clearly marked with the item they are allowed to purchase. Please instruct your child to give the sealed envelope directly to me.

Thank you so much!
